

CIMOTEX 460

Steam engine cylinders.

APPLICATIONS

Steam engine cylinders

- **CIMOTEX 460** oil is pure mineral oil for lubricating steam engine cylinders where condensate is recycled:
 - saturated steam: grades 460.
 - superheated steam: grade 100.
- They are also used for lubricating heavy machinery exposed to high temperatures.

SPECIFICATIONS

Meets the requirements of

- ISO 6743/0Z

ADVANTAGES

- High natural viscosity index.
- Good compatibility with seals.
- High ignition point.
- Benefits from advanced refining.

TYPICAL CHARACTERISTICS	METHODS	UNITS	CIMOTEX 460
			Result
Density at 15 °C	ASTM D4052	kg/m ³	903
Viscosity at 40 °C	ASTM D445	mm ² /s	460
Visosity index	ASTM D2270	-	90
Pour point	ASTM D97	°C	- 9
Open cup flash point	ASTM D92	°C	300

Above characteristics are mean values given as an information.
